TAMARA SONE

NCP COORDINATOR, ISED

# CANADA EU SCIENCE TECHNOLOGY AND INNOVATION SUMMARY

**Canada and the EU are strategic, close, like-minded partners**

**Excellent cooperation in many areas: AI, quantum, health, ocean, aviation, smart cities, bio-economy, raw materials, agriculture, and researcher mobility**

**Seven of Canada's top ten intensive research collaboration partners are European: France, Germany, Italy, Netherlands, Spain, Switzerland and the UK**

**Formal cooperation since the 1950s**

Flow of information and people but no dedicated funds

# CURRENT STATUS

-  **On July 3, 2024, the Government of Canada and the European Union signed an agreement allowing Canada's association to the Horizon Europe programme.**
-  **The Government of Canada will allocate 99.3 million euros (approximately 147 million Canadian dollars) over four years to fund Canada's association with Horizon Europe.**
-  **Canadian entities can participate in Pillar 2 of Horizon Europe on equal footing with their EU counterparts. This means they can lead or join consortia and are eligible for direct funding from the programme.**
-  **Canadian entities have no restrictions on accessing calls and can participate in all sensitive calls under the 2025 work programme.**

# Project example: Cluster 4

**BLOOM:** Optimising the extraction and processing of critical raw materials through liberation analysis

Duration: Dec. 2024 to Nov. 2028.

Type: Innovation Action

Budget: €7,500,000

12 organizations including 3 Canadian:

- Hudbay Minerals Inc. (€205,712.50)
- University of New Brunswick (€163,006.16)
- Capacitor Metals Corp. (€178,500.00)

BLOOM aims to develop and demonstrate extraction and processing technologies to facilitate exploitation of the primary raw critical raw materials.
